Notification dated 14th July 1953.

No. G.N. 32. Sealed tenders will be received in the Office of the Chief Electrical Engineer to the Government of Mysore, Bangalore, up to 3 P.M. on 14th August 1953, for the supply of the following, the terms of delivery being Ex-our C.P.S. Central Stores/f.o.r. Bangalore.

The tenderers should quote their best billing prices which should be firm for a period of one month from the due date of the tender. The rates should be quoted in figures and words. The earliest period within which delivery would be effected may be specified in the tender. Full specifications regarding make, etc., should be specified in the tender along with the manufacturer's name, etc., complete. Samples wherever possible should be sent for inspection. The quantities in each item to be purchased may be varied according to actual requirements at the time of placing orders.

No enhancement of rates for whatever causes will be allowed when once the quotation is accepted and order is placed. Withdrawal from the quotation after it is accepted or failure to make the supply within the scheduled period will entail cancellation of the order and forfeiture of the earnest money, if any. The successful tenderer should, if so required by us, should deposit a sum equal to five per cent of the value of the order as earnest money for the satisfactory execution of the order in accordance with the terms and period of delivery specified in the order.

The Chief Electrical Engineer does not bind himself to accept the lowest or any tender, but reserves to himself the right to accept or reject any tender at his discretion.

Supply on our order will be subject to the general conditions of contract prevailing in this department for local purchases.

The tenders should be superscribed as "Tender for the supply of 'AVO' Electronic Multimeter for measuring current and voltages at audio and radio fraquencies to be opened on 15th August 1953.

1.	AVO Electronic Multimeter for measuring current and voltages at audio and radio frequencies. The sensitiveness of the instrument is 40,000 ohms/volt and voltages can be measured from 250 milivolts to 10,000 volts and currents from 10 micro amps. to 25 amps. etc. This is a 95 range laboratory electronic meter which can be used to measure resistance, power input, etc.	One No.
